“The Boyne is not a showy river. It rises in County Kildare and flows gently and majestically through County Meath and joins the sea at Drogheda in County Louth some 112 kilometres later. It has none of the razzmatazz of its sister, the Shannon. It’s neither the longest river in Ireland, nor does it have the greatest flow. What it does have, and by the gallon, is history.

In fact, the Boyne Valley is like a time capsule. Travel along it and you travel through millennia of Irish history, from passage tombs that pre-date the Pyramids, to the Hill of Tara, seat of the High Kings of Ireland, all the way to the home of the First World War poet Francis Ledwidge in Slane. It’s the Irish equivalent of Egypt’s Valley of the Kings. And you can choose to explore it by car, bicycle, kayak, or by strolling along its banks and the towpaths of the navigation canals that run alongside from Navan to Oldbridge.”

An aerial photograph of a landscape at sunset. In the foreground, there are several large, circular stone structures, likely ancient tombs or forts, situated on a grassy hill. A river flows through the middle ground, reflecting the golden light of the setting sun. The background shows a vast, open landscape with rolling hills and a few scattered buildings under a dramatic, cloudy sky.

Out and about in the Boyne Valley

Whether it is a gentle riverside walk or hiking up to dramatic ruins, the great outdoors is where the Boyne Valley can be best appreciated. Bike or stroll along the Royal Canal Greenway, a section of which passes through south Meath, or paddle along the Boyne Blueway from the medieval town of Trim to Bective Abbey, filming location for Ridley Scott's *The Last Duel*. There are many tracks and trails right across the Boyne Valley, from woodland walks to historic routes, as well as the Boyne Valley Camino that runs in a loop from Drogheda to Old Mellifont Abbey.

Wide open beaches north of the Boyne in Louth and south of the Boyne in Meath offer plenty of room to stretch the legs, whilst the thrill of the gallops and jumps may be witnessed at the many racecourses in the region. For a gentler pace, the Boyne Valley boasts numerous high-quality golf courses, designed by noted professionals, whilst the Boyne Valley Garden Trail allows visitors to savour the natural beauty and architectural gems of the area.

The Royal Canal Greenway

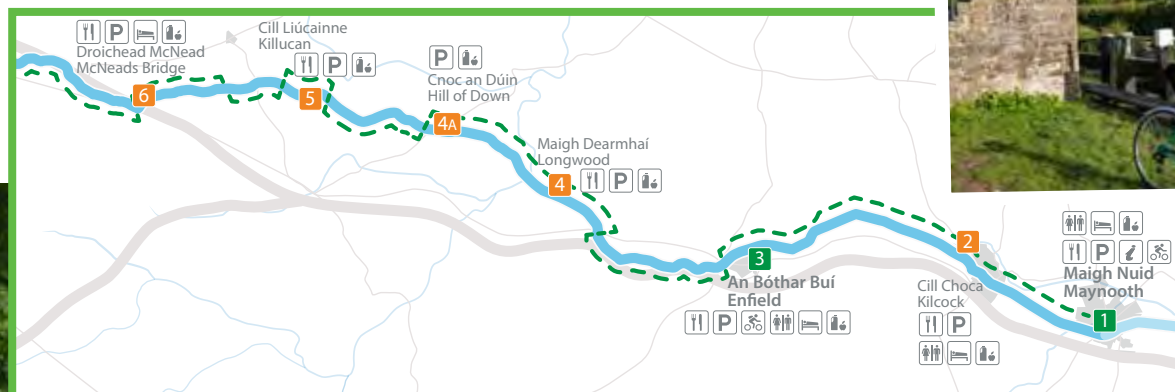

The enchanting Royal Canal Greenway is 130km of level towpath, ideal for walkers, runners and cyclists of all ages and stages. Starting in cosmopolitan Maynooth, it follows the 200 year old canal through friendly Enfield and lively Mullingar to charming Cloondara in Longford, with cafés, picnic spots and attractions along the way. Rustic and industrial landscapes combine, with rolling fields, pretty waterside villages, working locks and historic landmarks. Cycle between any of the main towns and return by train to where you started. Follow where once horse-drawn barges journeyed and keep an eye out for hidden wildlife wonders along the way.

Rolling countryside of Meath

Approximately 22km of the Greenway is set in County Meath, with access points at Enfield, Longwood and Hill of Down. Storyboards and map-boards at the access points guide you along the way, with picnic areas and benches to pause and enjoy your surroundings.

In Enfield, industrial heritage is showcased in the fine old Midland Great Western Railway buildings - the stationmaster's house, warehouses, old railway signal boxes and towers, still in use today. A few kilometres further on the Blackwater Aqueduct carries the canal over the Blackwater River. At Longwood Harbour the Ribbontail Paddlers Club use a restored lock keeper's cottage as a clubhouse. The club is named after the historic Ribbontail Footbridge, built for mass-goers to cross the canal on their way to the church in Longwood. You may even spot a barge at the Hill of Down before you travel onwards to Killucan.

The Royal Canal Greenway - One Trail, Endless Discoveries.
royalcanalgreenway.org

National Famine Way

The Royal Canal Greenway also includes part of the National Famine Way, which follows the poignant journey from Roscommon to Dublin of 1,490 Great Famine emigrants. Monuments at the Hill of Down, Longwood and Enfield mark this sad yet important part of Irish history. See nationalfamineway.ie for more details.

Angling for a catch

Angling Associations

The majority of game angling on the Boyne is controlled by angling associations and some by private fishery owners. Anglers wishing to fish for wild brown trout on an angling association water must obtain a permit from that association and fishing methods must be in accordance with the current rules and regulations of the association. Most associations support a policy of catch and release. When salmon fishing both a permit and a State licence are required. Salmon fishing is subject to the salmon and sea trout regulations which are renewed annually. For more information on game angling in the Boyne Valley please visit fishinginireland.info

in the magical waters of the Boyne Valley

Trout and Salmon Fishing

The River Boyne and its tributaries are recognised as being among Ireland's best wild brown trout fisheries. Some of the best fishing in the Boyne Valley can be found on the River Boyne at Slane, Navan, Trim and Longwood. There is also excellent wild brown trout fishing on the Kells Blackwater, Stoneyford, Athboy, Enfield Blackwater and Deel Rivers. Top quality "Lough Style" fishing for brown trout is accessible as well on the legendary Lough Sheelin. Competitively priced day permits can be purchased for most waters and the best way to ensure you make the most of your fishing trip is to book an experienced angling guide. The best time of year for brown trout fishing is from May to September. Salmon fishing is easily accessed on the River Boyne between Navan and Drogheda and the best period is generally from the end of July to the end of September. Additional trout fishing in Co. Meath is available on the River Nanny around Duleek, at Lough Bracken near Drumconrath.

Millmount

Folklore says that Amergin, the great poet and son Mil are buried at Millmount. He is said to be the first Milesian to set foot in Ireland, on the banks of the Boyne, upon which he recited his famous poem. Millmount has had many incarnations throughout history. It is believed that there may have been a motte set up by Hugh de Lacy when granted the Lordship of Meath in 1172. The tower that graces Millmount today was built in the early nineteenth century to help protect the country from a potential invasion by Napoleon. It now houses a museum on the history of Drogheda.

Newgrange

Newgrange (c 3,200 BC) is the best-known monument of Brú na Bóinne, predating the ancient pyramids of Giza by 400 years and Stonehenge in England by 1000 years. The passage tomb is surrounded by 97 kerb stones, the most impressive is the large entrance stone which is covered in swirls and designs. Inside the large mound there is a long passage leading into a chamber which branches off three ways. The cremated remains of the dead were laid on large stone basins inside the chamber which usually were accompanied by grave goods.

At dawn on the winter solstice, the shortest day of the year (December 21st), a shaft of sunlight enters the chamber of Newgrange through a specially designed opening over the doorway which illuminates the chamber. On December 21st 1967, Prof M. J. O'Kelly was the first person in modern times to see this now world-famous event.

Brú na Bóinne Visitor Centre

Newgrange

Newgrange

Knowth

The passage tomb complex lies to the west of Newgrange. The large mound covers two passage tombs placed back to back which is surrounded by 127 massive kerbstones. Outside this large passage tomb there are eighteen small tombs.

Over three hundred decorated stones make up Knowth which represents the greatest concentration of megalithic art in Western Europe. Recurring motifs on these stones include circles serpentine forms and spirals. A new exhibit at Knowth explores the megalithic art of the Boyne Valley, and the story of the archaeologists who discovered it, including the famed Meath archaeologists Prof George Eogan.

Don't Forget

All access to the monuments is via the Brú na Bóinne Visitor Centre. Do NOT go directly to Newgrange or Knowth.

Knowth

Knowth

Dowth

Dowth is the least well known of the other two although it compares in size. The mound is surrounded by a kerb of 115 stones and has two tombs facing westwards. On the 21st of December, the rays of the setting sun illuminate this passage and circular manner in manner similar to the winter solstice at Newgrange. At least thirty-eight of the stones at Dowth contain megalithic art, the circle meaning the most common motif used. There is no access to the interior of the Dowth Mound, but visitors may still walk around the outside and admire the monument and views.
